### **Introduction to Parkour**

Parkour is a fascinating discipline that allows traceurs (Parkour practitioners) to transform their urban environment into a real playground. By combining strength, agility and creativity, practitioners seek to overcome all obstacles that stand in their way, whether walls, barriers, rails, etc. By jumping, sliding, rolling or climbing, tracers seek to achieve fluid and aesthetic movements that defy gravity and push the limits of their body.

### **Introduction to Climbing**

Climbing is a sport that consists of climbing along a wall via a path, called a "climbing route", in order to reach the top of a rock, a mountain, an ice wall or an artificial structure (block, climbing wall).

A small refreshments stand will be run by  
the Collex-Bossy Table Tennis Club
